The Company holds a 100% interest in the Munro Lake gold property (Shane Resources Ltd. retains a 10% net profits interest).

The Company recently announced that Darren Anderson resigned as President of the Company effective August 1, 2013 (see Wescan News Release dated August 2, 2013). Wescan’s management and Board of Directors wishes to thank Mr. Anderson for his contributions to the Company and wishes him success in his future endeavors.

Outlook

The Company has focused exploration efforts on its northern Saskatchewan properties with known gold mineralization located in the La Ronge Gold Belt. The Company's success in raising flow-through financing during 2011 and 2012 allowed it to perform further exploration work on the Company's Jojay gold property, commence a preliminary economic assessment on this property, perform further exploration work on the Munro Lake gold property and complete additional work on the Jasper gold property. Management will also continue to evaluate the potential for the acquisition of other mineral properties that fit the Company's strategic direction. The Company will be required to raise additional funds to meet its current commitments as well as for ongoing working capital requirements.
